OtterPro

Elevate your business with OtterPro's advanced DTF printing system solutions, including DTF printers, UV DTF printers, and many other DTF printer series. Our tailor-made "Start to Finish" approach empowers makers, retailers, and manufacturers to enhance efficiency and innovation.

With cutting-edge technology, exceptional quality, and a focus on environmental sustainability, we're committed to boosting your productivity and competitiveness. Partner with OtterPro and transform your business into a beacon of success and efficiency.

Local Services

To ensure prompt and seamless support for OtterPro DTF printer users worldwide, we've established multiple OtterPro DTF Printer local service stations across the United States, Mexico, Panama, and Europe. Our comprehensive one-stop service center covers everything from purchasing and installing DTF printers to after-sales support, training, maintenance, repairs, and more. And we're still working on establishing OtterPro DTF service stations globally.

Besides the local service stations, you can also find OtterPro DTF products in Canada, Thailand, Saudi Arabia, Dubai, and other South American countries. If you need further assistance, please feel free to contact us!

Textile DTF

Printing Solution for Soft Fabrics

OtterPro DTF printer performs amazingly well on almost all kinds of fabrics, including tshirts, safety vests, hats, masks, shoes, banners, towels, aprons, bags, slippers, PU notebooks, coasters and more.

T-shirt

Hoodie

Apron

Hat

Pillowcase

Tote Bag

Shoes

Mouse pad

UV DTF

Printing Solution for Hard Substrates

Otter Pro UV DTF Printer produces permanent stickers that can be applied on almost hard, smooth, and even curved, cylindrical objects.

TEXTILE DTF PRINTING

01

Use DTF Printer to print your design

02

Spread hot melt powder evenly onto the film

Home Use & Retailer Solution

The desktop DTF series solves home use or retailer purposes. Focus on the targeted solutions to specific needs in the DTF printing process.

04

Transfer design with OtterPro heat press

03

Melt powder using an oven dryer and purifier in a clean, fresh workspace.

Mass Production Solution

Experience boundless printing options with our all-in-one DTF system—ideal for large-scale production or small-volume printing. Perfect for retailers or home makers, it integrates printing, powder shaking, heating, and purifying functions, providing efficiency and quality in a compact design. Fully automated features enhance workflow, ensuring high productivity and top-notch output. OtterPro heat presses are designed to give you high-quality prints quickly and easily. The Air Press Series Dual Station Heat Press, in particular, enhances productivity, providing consistent, professional results for mass production.

01 Use the DTF system to print, shake and dry your design

02 Transfer design with OtterPro dual station heat press or large format heat press

Model S 60 All-in-One Otter DTF System

The maximum print size of this large format all-in-one DTF printer is 60cm/23.6in, equipped with two advanced Epson i3200 printheads, this printer delivers faster and more precise prints. It's perfect for printing on larger garments, jeans, trade show banners, posters, and allowing mass production of custom clothing and more large scale projects.

Epson i3200 2 PCS

Print Width
0-600mm/23.6in Max

Note: The printer and shaker are sold as a set.

Low-volume Production

All-in-One Automated DTF System

Equipped with sensors, the automated system enables one-touch controls for automatic printing, powder shaking, drying, and film winding.

Control Panel

Manage the speed, power and temperature of the powder shaking and drying system with this intuitive control panel.

Auto Powder Recycling System

It can effectively improve the utilization rate of hot melt powder and minimize waste. In addition, it saves the hassle of shaking powder by hand, allowing the powder to be spread more evenly on the film.

Drying System

Equipped with five heating tubes and a larger drying area, our drying system ensures more uniform heating for your project, delivering superior outcomes.

Auto Take-up Reel System

With the automatic take-up reel system, you can free up your hands in the final production stage, achieving intelligent and secure film winding.

Built-in Fans

After the printed film is baked in the oven, the built-in fans accelerate film cooling and improve work efficiency.

Integrated Purifier

The air and oil purifier system can automatically treat smoke and oil and promote well-being and productivity. (No need to replace the filter cotton)

Advantages of Model S Series Printers

Stable & Quiet

DC motor controller
Double silent circular guide rails
Steel body

Safe & Intelligent

White ink automatic circulation stirring system
Automatic cleaning system
Alarm system
Peristaltic pump

High Efficiency

Three heating stages
Adjustable suction system
Multi-language RIP software

Auto White Ink Circulation System Auto Cleaning System

Consistent Print Quality. Increased Efficiency. Cost Savings.
Peristaltic pump with moderate pressure and great gas sealing to protect the printer head.

Ink Supply System

Clear ink markings save the hassle of pouring the wrong ink. The built-in alarm sensor reminds you to add ink in time, minimizing damage to the printer.

Three-stage Heating System

Accelerate DTF Ink drying speed on the film to guarantee optimal image quality before applying powder.

Double Silent Circular Guide Rails

Enhance operational stability with minimal noise.

Adjustable Vacuum Suction Platform

Deliver precise color printing with no deviations, ensuring a flat and seamless film output.

Model M 30 OtterPro DTF Printer

Model M 30 is a compact, desktop DTF printer perfect for home use and workshop. The maximum print size is 30 cm/11.8in, ideal for most small business needs. It's equipped with an Epson F1080 printhead for stable and precise prints. Plus, it also comes with a handy cutter that makes film cutting easier.

Tri-layer A3 DTF Dryer Pro & Air Purifier

It's the perfect companion for most desktop DTF printers and an essential tool for making samples before mass production.

Item No.	OT-DRYA3LB (Dryer)	OT-FLLB (Purifier)	Voltage	220V / 110V 50~60Hz
Power	1450W MAX±5%	150W MAX±5%	Temp. Range	104-302 °F (40-150°C)
Size	544*603*303mm	365*325*525mm	Time Range	1-60min
Weight	14.5 kg	9.5 kg	Film Size	300 x 420mm / 11.8 x 16.5 in

OtterPro portable purifier provides you a fresh air throughout your workspace. Easy to carry, simple to use. Experience an atmosphere that promotes well-being and productivity with our efficient air purification system.

Even Heating

The desktop DTF dryer features a hot air circulation design that ensures even heating and melting powder, delivering crisper, more durable and vibrant prints.

Better Results: The upgraded heating tunnel prevents oiling with a better curing effect

Max. temperature up to 150°C

High Efficiency

The maximum curing size is 30x42cm/11.8x16.5in, its three-layer design dries 3 sheets of A3 or 6 sheets of A4 film at a time, making it an efficient choice for DTF projects.

UV DTF
PRINTING

Model C 30 OtterPro UV DTF Printer

Model C 30 is a UV DTF printer that combines printing and lamination in one machine. No heat press is required, apply your stickers onto wood, metal, plastic, glass, acrylic, paper and almost any smooth, hard, cylindrical objects with ease!

The UV DTF printer is covered by a 2-year limited warranty. Additionally, parts that come in contact with ink, including ink cartridges, printheads, wiper blades, and other consumable parts, are also covered under warranty with an extra cost.

Epson i3200-U1 HD Printhead

The unique printhead design features 8 channels for 4 colored inks, 2 white inks, and 2 varnishes, delivering vibrant colors with faster and more accurate alignment.

Adjustable Heating Rollers

Ensuring precise and uniform heat distribution to achieve a bubble-free laminating effect.

Compact & Desktop

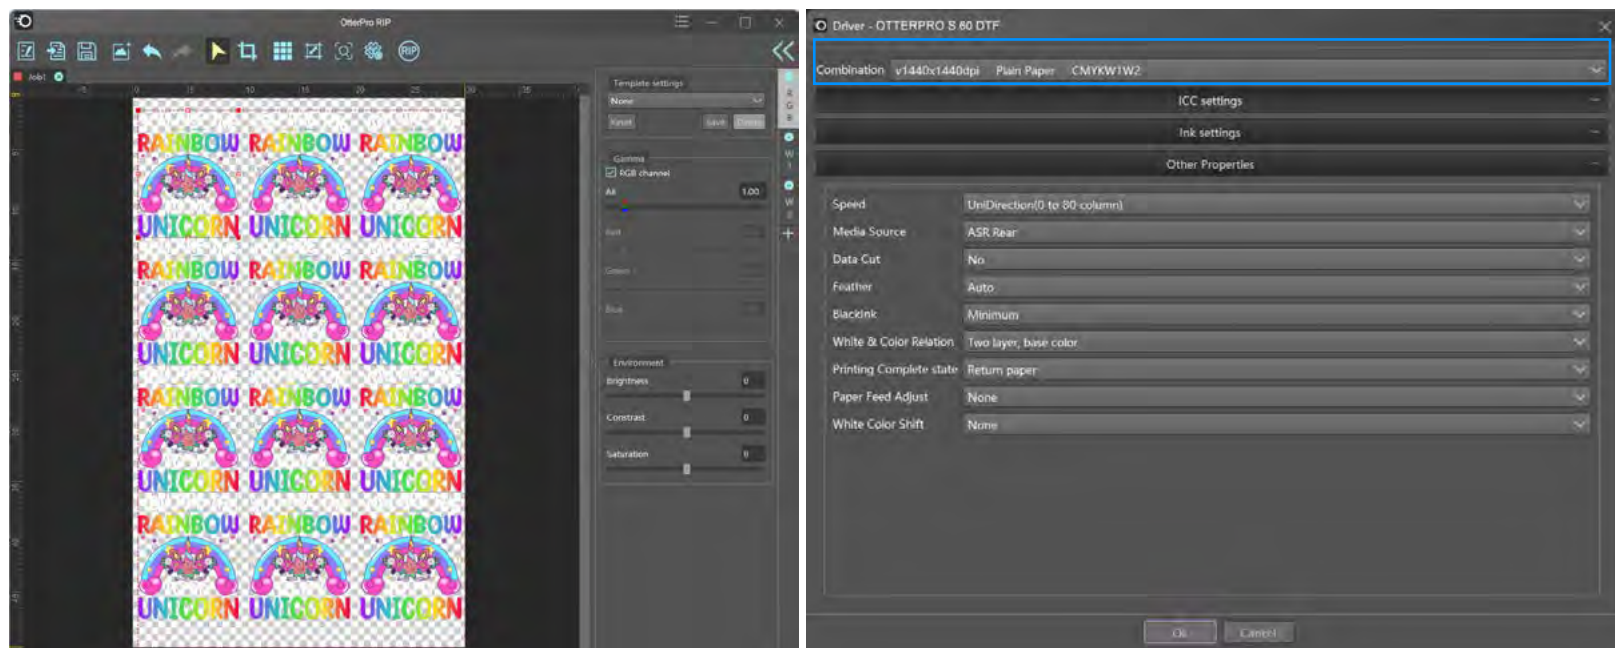

Compact desktop design, no extra stand required, ideal for small batch production at home or workshop.

Integrated Printing & Lamination

Model C 30 integrates printing, curing, and laminating in a single process. No heat press and cutter required to create permanent stickers for your projects. (Extra protection for integrity and safe transport)

OtterPro Multi-language RIP Software

Auto Layout

Batch printing with high efficiency

Customized ICC Profiles

Streamlining your workflow for optimal productivity.

OtterPro RIP Software

This software significantly boosts the productivity of DTF printing projects! It features a simple yet powerful interface, enabling you to effortlessly master image editing and design. Moreover, it supports multi-image automatic layout and duplicate printing, greatly enhancing work efficiency. The superior color output ensures DTF printers achieve "what you see is what you get" results!

You don't need to select a channel!

Skip configuring a specific channel in your Photoshop software for your current print job. Just save your file in PNG transparent format, export it, and print directly. This saves time and eliminates hassle, allowing for easy management of your software.

Applicable to all OtterPro Printer Systems

Autopress Max Heat Press

Item No.	OT-AUPB3838FLB	Temp. Range	40-205° C(104-401° F)
Power	1200W	Time Range	1-999 seconds
Voltage	230V/120V 50~60Hz	Printable Articles Max	38x38cm / 15x15in

One Touch Mode

Just touch to repeat! Batch personalization has never been simpler with a single touch.

Retracting Drawer

Effortless and elegant handle design that saves space; the retracting drawer offers you more room for easy prep work.

Intelligent Pressure

For substrates up to 2 cm thick, perfectly consistent pressure every time, with no guesswork.

Premium Heating Element

Redesigned for unmatched efficiency and even heating with 15" x 15" heating platen.

Unmatched Clarity and Convenience

Discover the ease of an expanded screen for effortless navigation, visualization, and settings adjustment. Create more with a timer that extends up to 8 minutes for larger projects.

Clamshell Heat Press

Specially designed for DTF printing! Unlike the previous horizontal version, this 40x50cm/16x20inch vertical heating platen design is more suitable for garment printing. The uniformly heating platen ensures exceptional printing results every time, making it an excellent choice for a DTF heat transfer!

Premium Heating Element Vertical Heating Platen

The Heat Press features an even heating platen board, which is essential for ensuring consistent results when heat transfers onto your substrates.

Ideal for T-shirt printing

Large Format Heat Press

This industrial oversized heat press is designed for printing larger projects, meeting batch printing needs in your custom garment business. When paired with DTF printing technology, it enables not only custom logo printing on t-shirts but also full print customization on garments.

Premium Heating Element

The Heat Press features an evenly heating platen board, which is essential for ensuring consistent results when heat transfers onto your substrates.

Oversized Heating Platen

It has an oversized heating platen, suitable for making full printing on large creations, like towels, blankets, tablecloths, pants, banners and more.

High Efficiency

Unlike a small-format heat press, this heat press can print dozens of photo frames, ornaments, and even 4 t-shirts at the same time, significantly enhancing heat transfer efficiency.

Stable & Safe

With its anti-scald cover and air circuit breaker, it provides enhanced safety during operation.
